

## **OFFICE HOURS**

**Monday - Thursday**  
**8:30 AM - 7:30 PM**

**Friday**  
**8:30 AM - 5:00 PM**

**Saturday**  
**8:30 AM - 1:00 PM**

**Sunday and Holidays**

*By arrangement for emergencies only*

All hours are by appointment only. If possible, we recommend booking physicals at least one month in advance. Under most circumstances, sick appointments will be booked the same day that you call. If the office is closed, please leave a message and we will contact you when we reopen to schedule an appointment.

## **EMERGENCIES & AFTER HOURS**

Of course, if your child has an urgent problem at any time of the day, we are available by phone. Urgent phone calls during regular office hours will be handled immediately by one of us or by a registered nurse who is working under our direct supervision. For urgent problems after hours, contact our answering service at 201-257-6596. One of us is available at all times.

### **Dr. Mary Lee Harrison**

Graduated from Indiana University Medical School and did her pediatric training at Medical College of Virginia. A parent of three children, she is board-certified and a Fellow of the American Academy of Pediatrics. She is a medical advisor for the La Leche League.

### **Dr. Daniel Schwartz**

## *SERVICES*

Our goal is to provide comprehensive medical care for your newborn, infant, child, adolescent and young adult. This includes assessment of health and growth, treatment of acute and chronic illness, disease prevention, parenting advice and management of behavioral, educational and mental health issues. We also maintain privileges at Valley Hospital in Ridgewood.

### *Services include:*

- Complimentary pre-natal consultations
- Physical examinations from birth through age 26.
- Management of acute illness
- Evening and weekend hours, with availability for serious acute illnesses on Sundays and holidays.
- Management of chronic conditions, including obesity, diabetes, hypertension and asthma.
- Evaluation and treatment of educational issues including attention deficit disorder, learning disabilities and processing problems.
- Management of behavioral issues including sleep and feeding problems, toileting issues and concerns regarding common behavioral problems in children and adolescents.

## *PHONE CALLS*

If you are calling about a non-urgent problem or you need advice or medication dosages, you will be asked to leave a message. Please understand that if we are busy with emergencies or patients with appointments, these will take priority over a non-urgent phone call, but we will return your call as soon as we possibly can. Alternatively, you may visit our website for basic information.

If you call us with a problem, please have available a paper and pencil, the names of any medications your child is taking, and a recent temperature, if relevant. Also, know which pharmacy you plan to use and whether or not it is open. It is a good idea to speak to your pharmacist about after hours and delivery policies.

We are often asked to prescribe medication over the phone. As long as we are able to update your child's medications through regular examinations, we are certainly happy to refill prescriptions for chronic problems such as asthma, allergies, seizure disorders, etc. In general, however, we feel it is bad policy to prescribe medications, especially antibiotics, without seeing the patient. In setting this policy, our number one concern is your child's welfare.

Of course, we realize that emergencies arise. In certain circumstances, we will prescribe an antibiotic over the phone, but we will expect that you will bring the patient to the office as soon as possible so that we can confirm our diagnosis.

## *PAYMENT*

We appreciate your payment at the time of service. For your convenience, we also accept either MasterCard, VISA, Discover or American Express. If it is necessary for you to make other arrangements, our centralized billing team will make every effort to assist you.

## *INSURANCE*

We participate in most managed care plans. Please call our centralized billing team during normal business hours at 201-252-8700 if you have questions about insurance plans or billing. If you belong to a plan with a specific co-pay amount per visit, payment is required at the time of service. Your insurance plan may restrict you to specific hospitals or diagnostic facilities or require you to receive certification prior to diagnostic evaluation or hospitalization. Please be aware of your plan's provisions. We may not have access to that information if you call us after hours. Some insurers do not cover in-office tests and screenings, therefore some time of service charges may apply. See our financial policy for more information.
